ATTENTION ALL STUDENTS:

These books are to be read during the summer. All books will be assessed during the first two weeks of school. The assessments will take a variety of forms according to the plans of the teacher. Several titles will also be discussed in class.

Freshmen students should read the books in such a way that they have a thorough understanding of the plot. At least one book will be assessed on the second day of school. Therefore, a wise approach would be to keep a reading journal with chapter notes.

- ***A Raisin in the Sun* must be purchased and read in the play version. Purchasing the movie version will not prepare the students for the assessment or the classroom discussions.**
